Accessibility Review

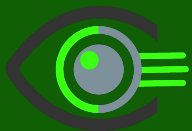

In today's legal landscape, accessibility is not just a compliance requirement - it's a vital part of fostering inclusivity and ensuring all team members can contribute effectively. With my personal experience as a visually impaired individual and extensive expertise using access technology, I bring a unique perspective to help law firms evaluate and improve the accessibility of their software systems.

What I do

- **Accessibility Testing:** I'll assess your software solutions, from practice management to document automation tools, to identify accessibility barriers that could impact team members with disabilities.
- **Assistive Technology Integration:** Drawing from my experience with screen readers, magnifiers, and other assistive tools, I'll evaluate how well your systems integrate with commonly used access technologies.
- **Workflow Usability:** I'll focus on how accessible your software is within daily workflows, ensuring all team members, regardless of ability, can efficiently perform their tasks.
- **Customised Recommendations:** Based on my review, I'll provide actionable recommendations to improve accessibility, from configuration adjustments to vendor discussions for potential enhancements.
- **Training and Support:** If needed, I can provide training or resources to help your team better understand accessibility needs and how to support colleagues using assistive technology.

Why get me to do It

- **First-Hand Insight:** As a visually impaired individual, I understand the practical challenges and needs of accessible software better than anyone.
- **Legal Tech Expertise:** With over 25 years of experience in legal technology, I know the tools your firm uses and the accessibility considerations they require.

- **Inclusive Perspective:** My focus is on creating solutions that empower everyone in your firm to work effectively, fostering a truly inclusive workplace.
- **Practical, Real-World Advice:** My reviews are grounded in practical, actionable strategies to ensure your software meets accessibility standards and works for your team.

Ensuring your software is accessible isn't just about meeting obligations - it's about creating a work environment where all team members can thrive. With my guidance, your firm can identify and resolve accessibility gaps, enhancing both productivity and inclusivity.
